

# Create An Account in SendGrid

**Step1:** Open SendGrid website and click Start for free.

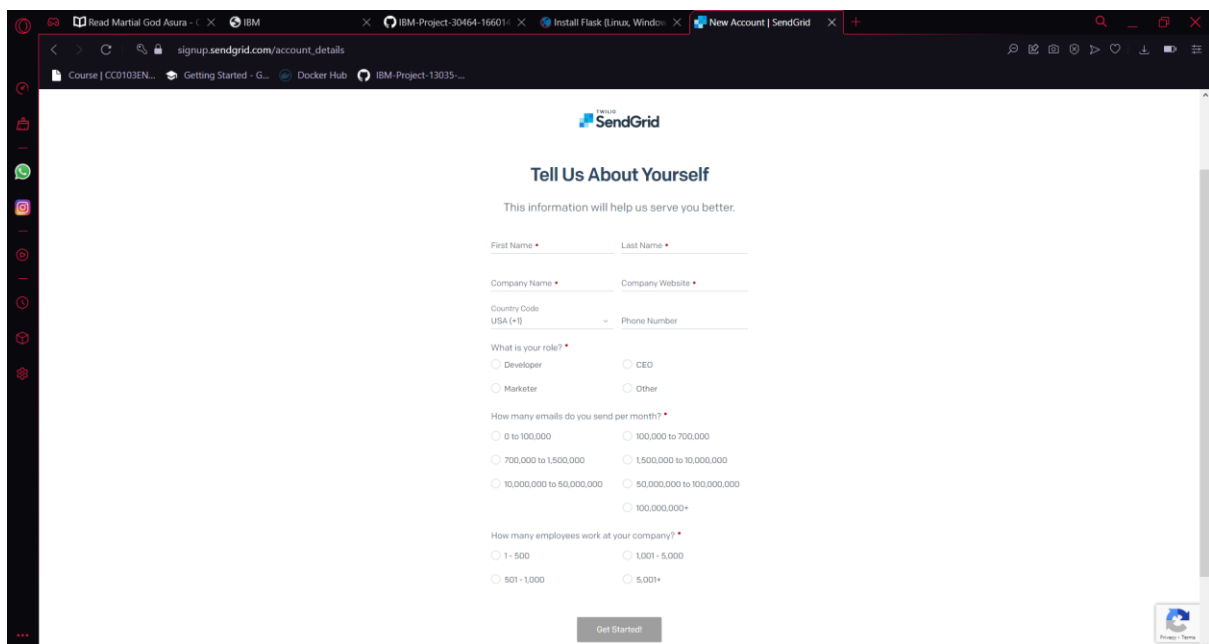

**Step2:**

Create new account with email and password.

**Step3:**

Enter the Personal Details and proceed.

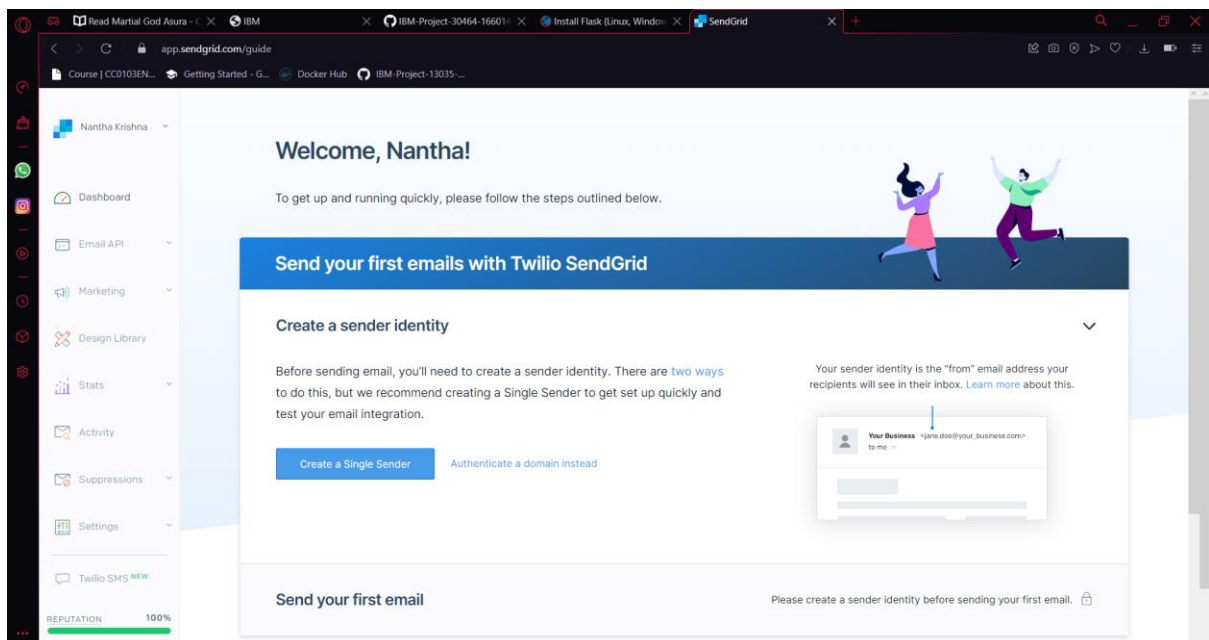

The screenshot shows the 'Tell Us About Yourself' registration form on the SendGrid website. The form is titled 'Tell Us About Yourself' and includes a sub-header 'This information will help us serve you better.' The form fields are as follows:

- First Name (required) and Last Name (required)
- Company Name (required) and Company Website (required)
- Country Code (USA (+1)) and Phone Number
- What is your role? (Developer, CEO, Marketer, Other)
- How many emails do you send per month? (0 to 100,000, 100,000 to 700,000, 700,000 to 1,500,000, 1,500,000 to 10,000,000, 10,000,000 to 50,000,000, 50,000,000 to 100,000,000, 100,000,000+)
- How many employees work at your company? (1-500, 1,001-5,000, 501-1,000, 5,001+)

A 'Get Started!' button is located at the bottom right of the form.

Step4:

Ready to send emails.

The screenshot shows the SendGrid dashboard with a sidebar on the left containing links to Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. The main content area displays a 'Welcome, Nantha!' message and a guide titled 'Send your first emails with Twilio SendGrid'. The guide includes a section 'Create a sender identity' with the following text:

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

Buttons for 'Create a Single Sender' and 'Authenticate a domain instead' are provided. A diagram illustrates the sender identity structure: 'Your Business' (name)@your\_business.com to me.

At the bottom, a section titled 'Send your first email' includes a note: 'Please create a sender identity before sending your first email.'
